

# The *DUNE at Work* website

Anne Heavey

Eileen Berman

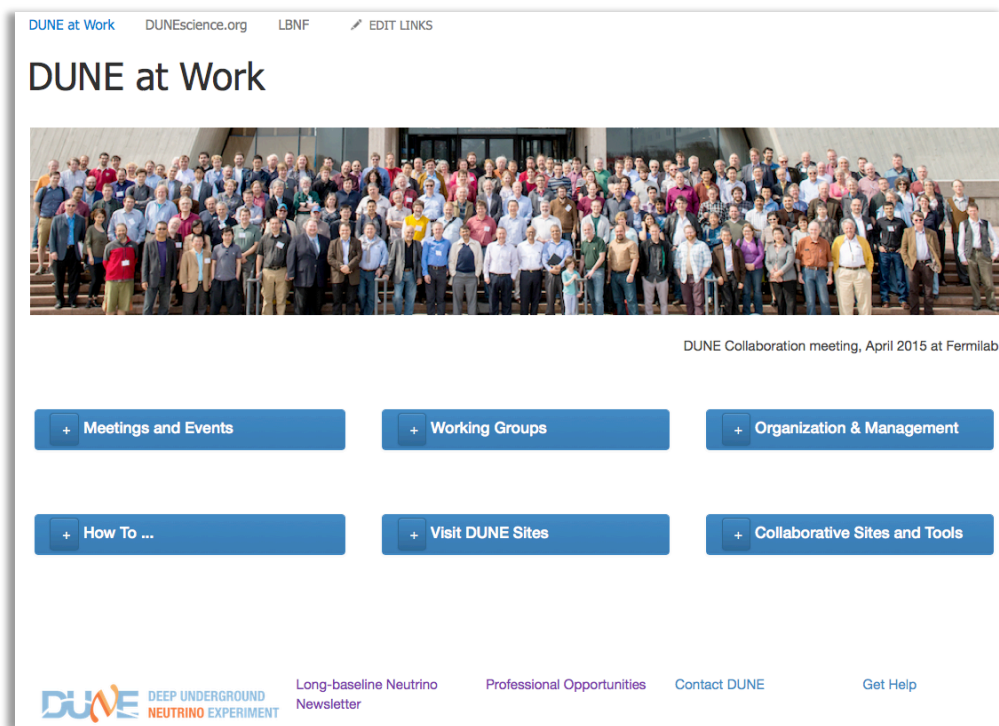

DUNE Collaboration Weekly Phone Meeting

July 31, 2015

# Introduction

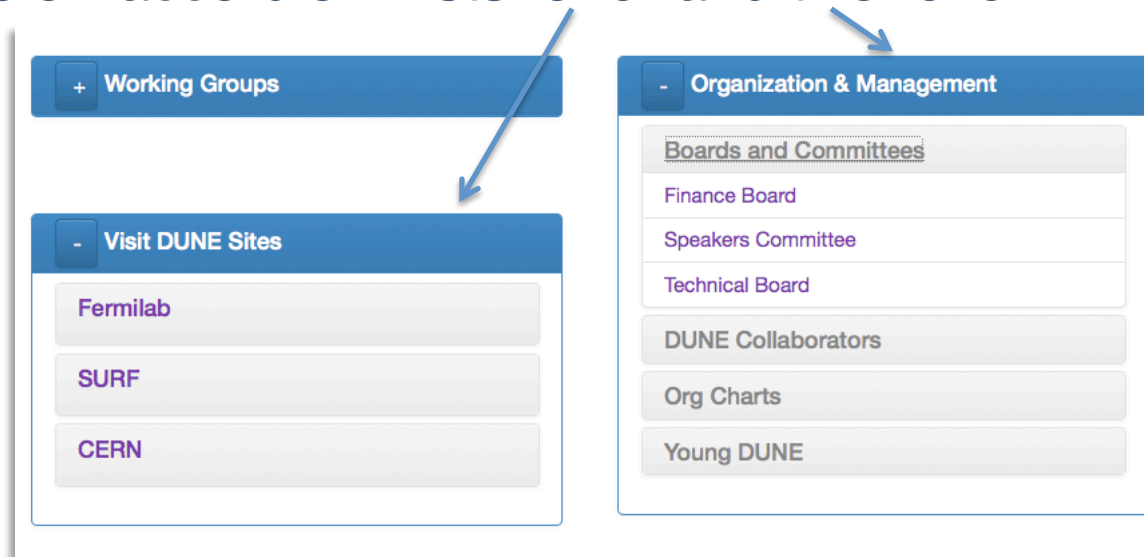

- DUNE and LBNF are well on their own paths now.
- It's time to establish / improve individual collaborative tools and sites.
- We now have a **DUNE at Work** site.
- Design and initial configuration: Mark, Eileen, Anne

- <https://web.fnal.gov/collaboration/DUNE/SitePages/Home.aspx>

## About *DUNE at Work*

- Purpose: Serve as information hub for DUNE Collaborators
- Designed to be uncluttered and easy to navigate
- Two kinds of “accordion” lists: one- and two-level

- Destination pages / sites for links need to be developed
- Groups / committees / etc. can maintain their working areas in any collaboration-approved application or site

How to Join

## What do *you* need to find on *DUNE at Work*?

- Let us know – send email to [dune-communication@fnal.gov](mailto:dune-communication@fnal.gov).
- All the content is configurable:
  - Add / change / rearrange / remove lists (blue bars)
  - Add / change / reorder / remove items in lists (grey bars)
  - Change position of lists
  - Add / change / remove links at top or bottom of page
  - Change picture
- Also send an email if...
  - your WG (TF, board, etc.) wants a subsite in the *DUNE at Work* site. We can help you set it up.
  - your page / site is ready for a live link from *DUNE at Work*.
